**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

REQUEST FOR CORRECTION OF FILING RECEIPT

Commissioner for Patents
P.O. Box 1450
Alexandria VA 22313-1450

Via facsimile to 703-746-4060

Sir:

Applicants respectfully request that the Filing Receipt for the above application be corrected as shown on the enclosed copy thereof, thereby correcting the serial number and filing date of one of the provisional applications benefit of which is claimed by the present application, and removing the statement that data provided by the applicants is not consistent with PTO records. A corrected Application Data Sheet showing the correct serial number and filing date is also filed herewith.

It was always the intention of the undersigned attorney, when filing this application, to claim benefit of Application Serial No. 60/320,207, filed May 5, 2003, and the correct serial number and filing date are given in Paragraph [0002] on the first page of the specification. Unfortunately, the undersigned made a clerical error in the Application Data Sheet, giving the correct filing date but erroneously stating the serial number to be 60/320,217. Although the undersigned does not have access to 60/320,217, it is believed that it will be apparent on its face that this application is in no way related to the present

application and has no inventor in common, whereas the relationship both of content and inventorship between the present application and 320,207 will readily be apparent. The Office, acting on the Application Data Sheet, assumed the serial number was correct and the filing date incorrect. Accordingly, correction is now requested to render the Filing Receipt consistent with Paragraph [0002] of the specification.

No new matter is added by this amendment since the correct serial number and filing date were given in the application as filed.

Respectfully submitted

David J. Cole
